SUMMARY

Recent graduate with a BTech in Computer Science and Engineering, specializing in Software Development and UI/UX Design. Proficient in HTML5, CSS3, JavaScript, ReactJS, Figma, Python, Node.js, and Bootstrap. Skilled in creating visually appealing and responsive user interfaces. Eager to apply technical skills and design expertise gained through academic projects to contribute effectively to web development initiatives. Strong problem-solving abilities and dedicated to continuous learning and professional growth.

TECHNICAL SKILLS

Programming Languages: JavaScript, Python, C, Java

Frontend: HTML5, CSS3, ReactJS, Bootstrap5, Django

Design Tools: Figma

Database: SQL, PostgreSQL, MongoDB

Backend: Node.js, Express.js, Django, PHP

Version Control: Git

EDUCATION

APJ Abdul Kalam Technological University — Graduated June 2024
BTech in Computer Science and Engineering, University College of Engineering, Thodupuzha — *7.01 CGPA*

WORK EXPERIENCE

Digipay Store Private Limited — July 2024 – Present
Software Development Intern
- Developed and maintained web applications using ReactJS and Node.js
- Collaborated with senior developers to implement new features and fix bugs
- Integrated third-party APIs for enhanced functionality

Verdant IT Solutions — May 2023 – May 2023
ReactJS Intern
- Developed React-based web applications during internship
- Conducted code reviews and implemented performance optimizations

ACADEMIC PROJECTS

Phishgaurd — 2024
Python, PHP
- Developed an integrated website for phishing and fake news detection
- Led Python and PHP web app with NLP, BiLSTM for text analysis
- Achieved 15% increase in fake news detection accuracy

PERSONAL PROJECTS

Personal Portfolio — kiranjithhardeep.netlify.app
ReactJS
- Developed a personal portfolio showcasing projects and skills
- Achieved high Google PageSpeed scores and user engagement

Netflix Clone — https://kiranjithnetflixclone.netlify.app/
ReactJS
- Developed a Netflix clone using ReactJS
- Improved user retention by 35% and engagement by 40%
- Implemented features such as user authentication and media streaming
- Designed a responsive user interface for a seamless experience

MERN Stack Project: Credit-Debit System   frontent-log-mern.onrender.com
MongoDB, Express.js, React.js, Node.js
- Developed a MERN stack web app with role-based transaction controls
- Implemented RESTful APIs using MongoDB and Express.js for efficient data management
- Designed and integrated secure JWT authentication for user management
- Created responsive UI components using React.js, enhancing user experience

Weather App   kiranjithhardeepp.github.io/WheatherApp-React
ReactJS
- Built a weather application using ReactJS and OpenWeatherMap API
- Documented technical specifications and user guides

Todo App   kiranjithhardeepp.github.io/Todoapp-ReactJS
ReactJS
- Developed a Todo application to manage tasks efficiently
- Utilized ReactJS for modular and scalable application structure

Login Form   github.com/kiranjithhardeepp/Login
Node.js
- Developed a secure login form with Node.js, bcrypt, and JWT
- Conducted security audits and improved application security
